TOTAL LIVING: 1,883 SQ. FT. | 175 SQ. M.

 Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth in the Declaration. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development. All depictions of furniture, appliances, build-ins, closet finishes, counters, soffits, floor coverings, lighting, landscaping and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each residence. Furnishings are only included if and to the extent provided in your purchase agreement. Certain finishes, furnishings and services, if provided, may be upgrades or extras and require additional payments. Private pools depicted are not guaranteed and may only be offered as an upgrade for additional fees.
